About Us

Grand Forest Cabinetry, located in Union City, CA, is founded in 2020 by a group of experienced industry professionals with a mission of bringing both aesthetic and practicality to living spaces. Grand Forest's cabinets are proudly assembled in the United States.

Grand Forest strives to keep up with the latest trend and technology development by choosing the right color with the right finish for you. We love the classic look of the American-style cabinets, yet adore the ergonomics and simplicity of European cabinets. So our owner decides to combine the advantages of both styles for our shaker cabinets. The Grand Forest cabinet will prove itself for timelessness and lifetime durability. We have a diverse selection of white, grey, dark blue, and oak color with matte and glossy lacquer finishes. More styles are in the making with dependable lead time and environmental stewardship.

With a specialization in laminated plywood cabinets, Grand Forest adopts the M-Box structure cabinet with $\frac{3}{4}$ " white melamine laminated plywood for extra durability. Frameless design maximizes the overall storage space. Soft-close double-wall DTC drawer system minimizes the noise and effort from closing the cabinet doors. Cam-Lock system enables easy assembling. Distributors will benefit from the peace of mind they get from the unified cabinet.

Please don't hesitate to email us at info@gfcabinets.com or call us at +1 510-763-2211 with your design and remodeling needs. Together let's work out the perfect living space for you.
